YAMAHA RACING

The call of the BLUE®

FEEL THE SURGE OF ELECTRIC LIKE...

NEVER BEFORE

AEROX E

YAMAHA MEETS PERFORMANCE LIKE NEVER BEFORE

Backed by decades of innovation, Yamaha brings a legacy of performance and precision to a new era of electric mobility. Yamaha EVs are designed for discerning modern riders who want it all.

FOR THE ACHIEVERS

Experience electric performance like never before. The Aerox-E combines advanced engineering with elegant design to deliver a ride that's powerful, refined, and effortless. It is performance, perfected for the modern rider.

CORE HIGHLIGHTS

95.5 km/hr *Top Speed*

48 Nm *Max Torque*

9.4 Kw *Peak Power*

1.5 x 2 kWh *Battery Capacity*

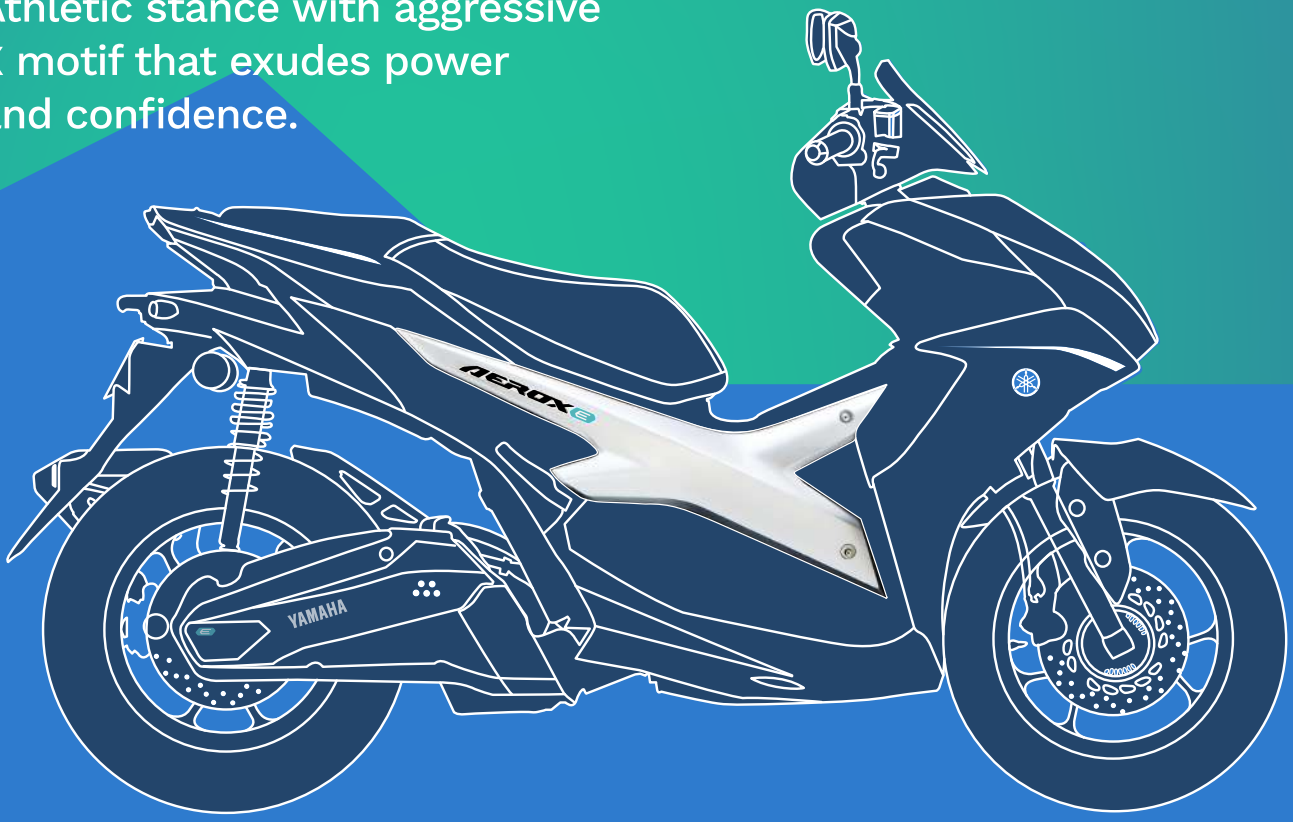

3 Hours **10** Mins *0%-100% Charging Time (1 pack)*

117 km *Range (IDC)*

SPORTY DESIGN

THE X-FACTOR

Athletic stance with aggressive X motif that exudes power and confidence.

HEADLIGHT

A sleek LED headlight that cuts through the dark with a bold, aerodynamic design.

COLOUR TFT CONSOLE

Get information on the go with the colour TFT instrument cluster.

ECO-SMART PERFORMANCE

RIDING MODES

Switch between ECO, STANDARD and POWER modes based on your riding preference.

Change modes easily with a convenient switch.

ECO

Optimized power and energy, packed for hassle-free long riding.

STD

For comfortable cruising through city streets.

PWR

For when you need that extra boost for your ride.

POWER BOOST

Give your ride a surge of power when you need it most. Experience rapid acceleration for a strong pick-up in all three ride modes. Once the number reaches a level of 10.0, it indicates that Power Boost is primed and ready to use.

ENHANCED COMFORT

SUPER WIDE REAR TYRE

Navigate effortlessly on any surface with better grip and stability.

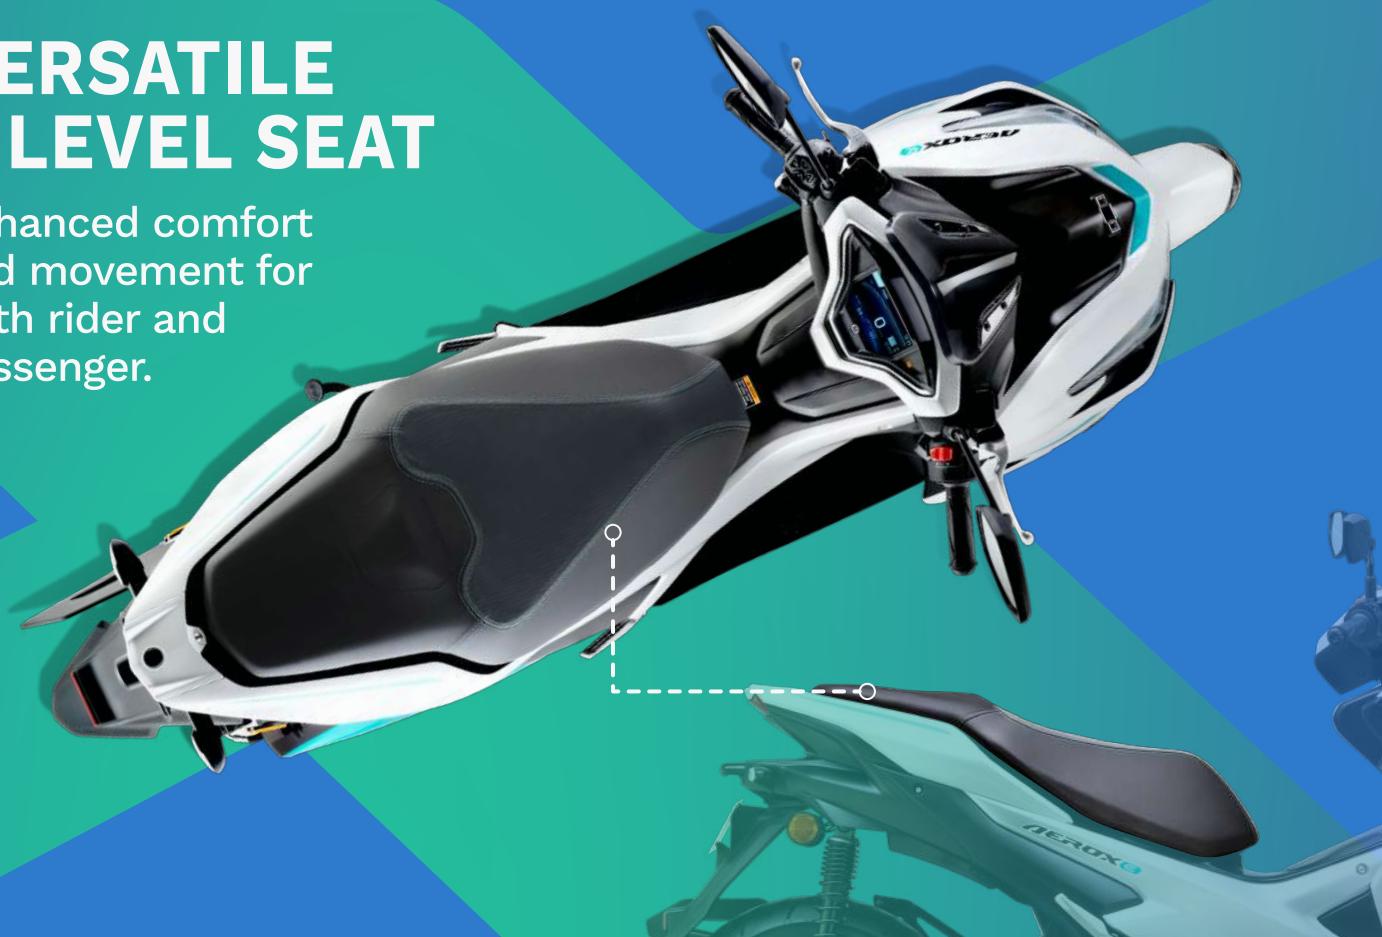

TRACTION CONTROL SYSTEM

An electronic system that regulates torque which helps to reduce or prevent a wheelspin, designed to prevent loss of traction of the wheels.

VERSATILE 2 LEVEL SEAT

Enhanced comfort and movement for both rider and passenger.

REMOVABLE BATTERY

Detach easily and charge anytime, anywhere at your convenience.

*Optimized performance with a single battery.

DOCK CHARGER

Designed for convenient charging, to accommodate two Aerox-E battery packs.

SEAMLESS CONNECTIVITY

YAMAHA MOTORCYCLE CONNECT

TURN-BY-TURN NAVIGATION

Stay connected on the go with Y-Connect app and Bluetooth mobile phone connectivity. Convenient Turn-by-turn navigation gets you where you need to go.

SMART KEY WITH ANSWER BACK

With flashing blinkers and a buzzer sound, it's easy to identify your Aerox-E in crowded areas with the Answer-back function and just at the click of a button.

WHY AEROX-E?

ENJOY ELECTRIC PERFORMANCE LIKE NEVER BEFORE.

ACCELERATION

Feel the rush of Aerox-E with instant pick-up for exhilarating rides.

POWER

Enjoy the surge of 9.4 kW for peak performance, every time.

COMFORT

Designed for your riding comfort, the Aerox-E makes every outing a pleasure.
